DETAILED ACTION

1. Claims 1-27 are pending in the application.

Election/Restrictions

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-12 and 19-27, drawn to compounds of formula (I) where Z represents an aryl or cycloalkyl group, pharmaceutical compositions containing these compounds and a method of using these compounds, classified in class 564, subclass 123.
- II. Claims 1-27, drawn to compounds of formula (I) where Z represents isoquinoline group, pharmaceutical compositions containing these compounds and a method of using these compounds, classified in class 546, subclass 139.
- III. Claims 1, 2, 5-11 and 20-27, drawn to compounds of formula (I) where Z represents 6-membered heteroaryl or heterocyclic group containing only one N atom as heteroatom, pharmaceutical compositions containing these compounds and a method of using these compounds, classified in class 546, subclass 304.
- IV. Claims 1, 2, 5-11 and 20-27, drawn to compounds of formula (I) where Z represents 6-membered heteroaryl or heterocyclic group containing only two N atoms as heteroatoms, pharmaceutical compositions containing these compounds and a method of using these compounds, classified in class 544, subclass 224.

V. Claims 1, 2, 5-11 and 20-27, drawn to compounds of formula (I) where Z represents 10-membered bicyclic heteroaryl group containing only two N atoms as heteroatoms, pharmaceutical compositions containing these compounds and a method of using these compounds, classified in class 544, subclass 253.

VI. Claims 1, 2, 5-11 and 20-27, drawn to compounds of formula (I) where Z represents 9-membered bicyclic heteroaryl group containing only one or two N atoms as heteroatoms, pharmaceutical compositions containing these compounds and a method of using these compounds, classified in class 548, subclass 469.

VII. Claims 1, 2, 5-11 and 20-27, drawn to compounds of formula (I) where Z represents 9-membered bicyclic heteroaryl group containing only one N atom and one S or O atom as heteroatoms, pharmaceutical compositions containing these compounds and a method of using these compounds, classified in class 548, subclass 152.

VIII. Claims 1, 2, 5-11 and 20-27, drawn to compounds of formula (I) where Z represents 9-membered bicyclic heteroaryl group containing only one or two O atoms as heteroatoms, pharmaceutical compositions containing these compounds and a method of using these compounds, classified in class 549, subclass 434.

IX. Claims 1, 2, 5-11 and 20-27, drawn to compounds of formula (I) where Z represents 5-membered heteroaryl group containing only one N, S or O

atom as heteroatom, pharmaceutical compositions containing these compounds and a method of using these compounds, classified in class 548, subclass 557.

X. Claims 1, 2, 5-11 and 20-27, drawn to compounds of formula (I) where Z represents 5-membered heteroaryl group containing only one N atom and one S or O atom as heteroatoms, pharmaceutical compositions containing these compounds and a method of using these compounds, classified in class 548, subclass 215.

3. The inventions I through X as defined above are patentably distinct, each from the other since they are structurally so divergent that a reference showing compounds of invention I would not render compounds of inventions II through X *prima facia* obvious. Search required for e.g ; compounds of invention I in class 564, subclass 123 is not the same search required for e.g ; compounds of invention II in class 546, subclass 139 and therefore, constitutes a burdensome search.

4. A telephone call was made to the applicant's attorney, Ms. Jing S. Belfield on July 19, 2005 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Charanjit S. Aulakh whose telephone number is (571)272-0678. The examiner can normally be reached on Monday through Friday, 8:30 A.M. to 5:00 P.M..

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Cecilia Tsang can be reached on (571)272-0562. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
